Planned Prevas GCM-releases during 2021.

Prevas GCM is updated according to GDSN releases of trade item information as well as separately a few times a year. Releases may contain new functionality, corrections of errors and improvements, some of them are suggestions that came from Prevas GCM users through the support. Information about the close down of Prevas GCM is announced via news on Prevas GCM start page at least one week in advance.

We are constantly working on developing Prevas GCM, both changes that make it easier to use the system but also improvements such as performance, use of new technology etc. All to make constant improvements to Prevas GCM and we are happy to receive comments from our customers.

Collaboration with Validoo

Prevas collaborates with GS1/ Validoo and participates in GS1's user group for trade item information to get information on current issues and to contribute with views as a system supplier.

Prevas also participates together meetings between Validoo, Prevas and other suppliers to catch news and to give feedback to GS1 regarding the standard, feedback from our customers, way of working etc. If your company would like to have common meetings with Validoo and Prevas or have other questions or comments about this, contact Prevas via support.gcm@prevas.se.

Education in Prevas GCM

Prevas conducted a series of short Teams session trainings during 2020 and did a walkthrough of new features in Prevas GCM and some useful guidelines of way of working in the tool. Prevas plan to do the same the coming autumn 2020. We offer a Teams meeting where we, according to your demands, go through Prevas GCM together with us and where there is the opportunity to ask questions and give feedback. The sessions will be held in English and are free. Contact support (support.gcm@prevas.se) if this could be of interest for you.

Send trade item information to Danish and Finish market with Prevas GCM

You can order the service to **Send trade item information to Danish and Finnish markets**. Then the article fields can be added with Danish and Finnish trade item information. Danish and Finnish validation rules are running when the trade item information is saved and when the trade item information is sent to Danish and Finnish receivers.

You choose in the graphical interface which market the trade item information should belong to:

The screenshot shows the Prevas GCM interface with search filters and a table of trade item information. The search filters include: Leverantörens artikelnummer, GTIN / Komponent id, Varumärke, Artikelbenämning / Komponentbesk., Artikelnivå, Status, and Marknader (Sverige, Danmark, Finland). The table below shows the results:

Senast sparad	Lev art nr	GTIN / Komponent id	Varumärke	Artikelbenämning / Komponentbesk.	Storlek	Artikelnivå	Slutdatum	Status

Additional functions in Prevas GCM

- **Integration between business system and Prevas GCM**
Prevas has developed various custom adapted integrations to import trade item information from business systems or other systems via XML, text or Excel format. This is to ensure quality assurance and avoid double registration of trade item information. We also have long experience working with integrations between different systems and being responsible for operation and support during the system's lifecycle.
- **Send from different GLN's**
For a specific publication it is possible to select supplier GLN that trade item information will be sent from. A list of pre-defined user-defined GLN's will be available to select among and trade item information will be sent for selected GLN.
- **Export trade item information to Dabas**
The function is available to export validated trade item information to Dabas. For customers connected to the service, Dabas could be chosen as receiver for trade item information in the creation of publications.

Please contact Prevas GCM support to discuss your specific needs.

Best regards and wishes about a wonderful summer from Prevas GCM team

Prevas sends newsletters regularly via email to Prevas GCM users. It is sent both to customers with Prevas GCM-agreement and to Registration Help customers. We would like to inform you about future releases of Prevas GCM, additional functions that can be ordered or other information that can be interesting.
