

## Happy summer from Prevas GCM!

Prevas GCM team wish both old and new customers a pleasant summer. We will thank all our customers for good cooperation in both support issues and different projects.

### Current information

#### Prevas GCM has limited support week 30

During v.30, Prevas GCM support has closed and therefore support issues such as registration assistance and other issues cannot be handled until Monday week 31 when we open as usual again.

Acute cases such as being unable to log in or contacting the server, please refer to +46 54-14 74 40.

#### New GS1-releases 2020

- GS1 3.1.13, 8<sup>th</sup> of August and is a minor release.  
More information here: [Information from GS1](#)
- GS1 3.1.14, November, according to GS1, this release should be smaller than the one that came in May.

#### Planned Prevas GCM-releases during 2020

Prevas GCM is updated according to GDSN releases of trade item information as well as separately a few times a year. Releases may contain new functionality, corrections of errors and improvements, some of them are suggestions that came from Prevas GCM users through the support. Information about the close down of Prevas GCM is announced via news on Prevas GCM start page at least one week in advance.

We are constantly working on developing Prevas GCM, both changes that make it easier to use the system but also improvements such as performance, use of new technology etc. All to make constant improvements to Prevas GCM and we are happy to receive comments from our customers.

## Collaboration with Validoo

Prevas has good contact with GS1/ Validoo and participates in GS1's user group for trade item information to get information on current issues and to contribute with views as a system supplier.

Prevas also participates together meetings between Validoo, Prevas and other suppliers to catch news and to give feedback to GS1 regarding the standard, feedback from our customers, way of working etc. If your company would like to have common meetings with Validoo and Prevas or have other questions or comments about this, contact Prevas via [support.gcm@prevas.se](mailto:support.gcm@prevas.se).

## Education in Prevas GCM autumn 2020

Prevas conducted a couple of 1-2 h Skype session trainings during 2019 and did a walkthrough of new features in Prevas GCM and some useful guidelines of way of working in the tool.

Prevas plan to do the same the coming autumn 2020. We offer a Skype meeting where we, according to your demands, go through Prevas GCM together with us and where there is the opportunity to ask questions and give feedback. The sessions will be held in English and are free. Contact support ([support.gcm@prevas.se](mailto:support.gcm@prevas.se)) if this is could be interesting.

## Prevas GCM

### Send trade item information to Danish and Finish market with Prevas GCM

You can order the service to **Send trade item information to Danish and Finnish markets**. Then the article fields can be added with Danish and Finnish trade item information. Danish and Finnish validation rules are running when the trade item information is saved and when the trade item information is sent to Danish and Finnish receivers.

You choose in the graphical interface which market the trade item information should belong to:

The screenshot shows the Prevas GCM web interface. At the top, there is a navigation bar with the Prevas GCM logo and menu items: ARTIKLAR, PUBLIKATIONER, and INSTÄLLNINGAR. On the right, it says 'Leverantör: Prevas AB' and 'Användare: Prevas'. Below the navigation bar, there is a search bar labeled 'Sök artiklar'. The main content area contains a search form with the following fields: 'Leverantörens artikelnummer', 'GTIN / Komponent id', 'Varumärke', 'Artikelbenämning / Komponentbesk.', 'Artikelnivå', 'Status', and 'Marknader'. The 'Marknader' field has checkboxes for 'Sverige', 'Danmark', and 'Finland'. There are 'Rensa' and 'Sök' buttons. Below the search form is a table with the following columns: 'Senast sparad', 'Lev art nr', 'GTIN / Komponent id', 'Varumärke', 'Artikelbenämning / Komponentbesk.', 'Storlek', 'Artikelnivå', 'Slutdatum', 'Status', and icons for edit, delete, and share. The table contains three rows of data:

Senast sparad	Lev art nr	GTIN / Komponent id	Varumärke	Artikelbenämning / Komponentbesk.	Storlek	Artikelnivå	Slutdatum	Status

If this is interesting for your company, please contact us at [support.gcm@prevas.se](mailto:support.gcm@prevas.se).

We recommend booking a Skype meeting where we inform and show in Prevas GCM how this works!

## Additional functions in Prevas GCM

- **Integration between business system and Prevas GCM**

Prevas has developed various custom adapted integrations to import trade item information from business systems or other systems via XML, text or Excel format. This is to ensure quality assurance and avoid double registration of trade item information. We also have long experience working with integrations between different systems and being responsible for operation and support during the system's lifecycle.

- **Send from different GLN's**

For a specific publication it is possible to select supplier GLN that trade item information will be sent from. A list of pre-defined user-defined GLN's will be available to select among and trade item information will be sent for selected GLN.

- **Export trade item information to Dabas**

The function is available to export validated trade item information to Dabas. For customers connected to the service, Dabas could be chosen as receiver for trade item information in the creation of publications.

*This function has got a lower price from 2020.*

**Please contact Prevas GCM support to discuss your specific needs.**

***Best regards from Prevas GCM team***
