Planned Prevas GCM-releases during 2019

Prevas GCM is updated according to GS1 releases of trade item information as well as separately a few times a year. Releases may contain new functionality, corrections of errors and improvements, some of them are suggestions that came from Prevas GCM users through the support. Information about the close down of Prevas GCM is announced via news on Prevas GCM start page at least one week in advance.

We are constantly working on developing Prevas GCM, both changes that make it easier to use the system but also improvements such as performance, use of new technology etc. All in order to make constant improvements to Prevas GCM and we are happy to receive comments from our customers.

Prevas develops integration between business systems and Prevas GCM

Prevas has several international customers who use Prevas GCM and where we developed integration of trade item information between customer's business systems and Prevas GCM for Swedish, Danish and Finnish markets.

There is a great interest in integrating both business systems and PIM systems with Prevas GCM in order to avoid double registration of trade item information.

We have long experience working with integrations between different systems and also being

Send trade item information to Danish and Finish market with Prevas GCM

You can order the service to Send trade item information to Danish and Finnish markets. Then the article fields can be added with Danish and Finnish trade item information. Danish and Finnish validation rules are running when the trade item information is saved and when the trade item information is sent to Danish and Finnish receivers.

You choose in the graphical interface which market the trade item information should belong to:

The screenshot shows the Prevas GCM web interface. At the top, there is a navigation bar with the Prevas GCM logo and menu items: ARTIKLAR, PUBLIKATIONER, and INSTALLNINGAR. The user is logged in as 'Användare: Prevas'. Below the navigation bar is a search bar labeled 'Sök artiklar'. The main content area contains a search form with the following fields: 'Leverantörens artikelnummer' (with a dropdown for 'Artikelnivå'), 'GTIN / Komponent id', 'Varumärke', 'Marknader' (with checkboxes for Sverige, Danmark, and Finland), and 'Artikelbenämning / Komponentbesk.'. There are 'Rensa' and 'Sök' buttons. Below the search form is a table with the following columns: 'Senast sparad', 'Lev art nr', 'GTIN / Komponent id', 'Varumärke', 'Artikelbenämning / Komponentbesk.', 'Storlek', 'Artikelnivå', 'Slutdatum', 'Status', and icons for edit, delete, and refresh. The table contains three rows of data:
